

# WE HAVE THE SAME RIGOROUS APPROACH TO FOOD SAFETY IN INDIA THAT WE HAVE EVERYWHERE ELSE.

We have

**300 PEOPLE**

in total

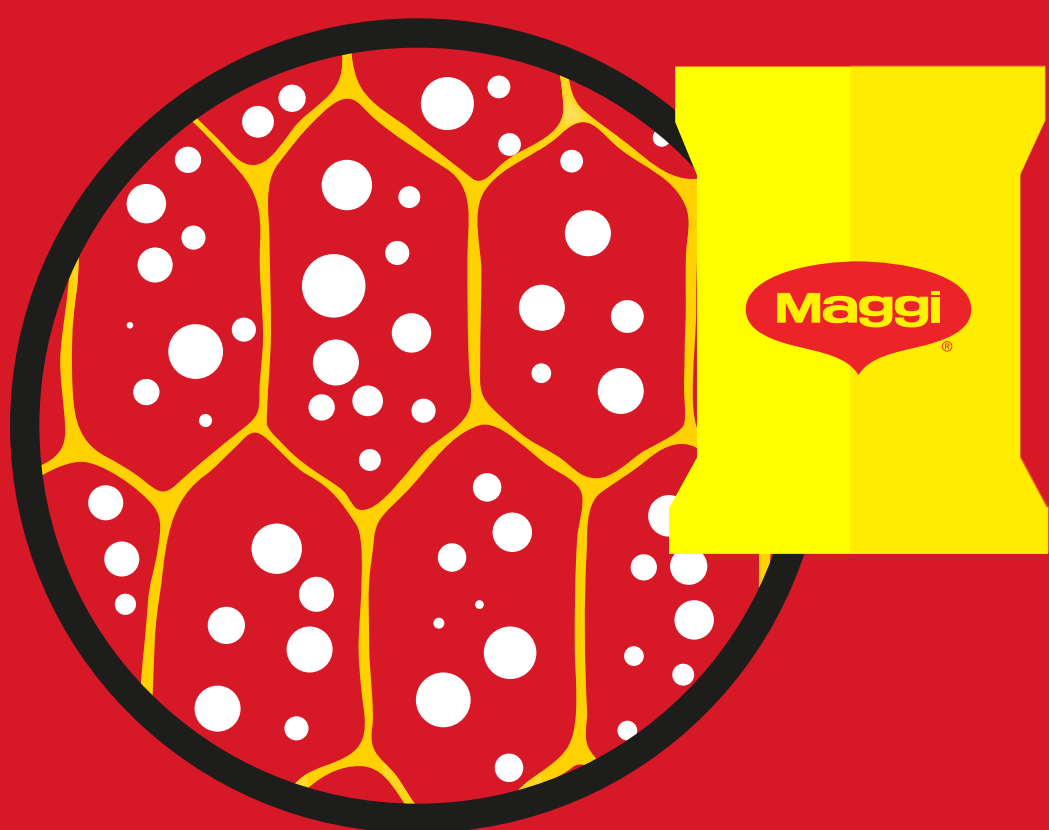

**IN QUALITY ASSURANCE IN INDIA**

around half working in our 9 labs there (8 in factories, 1 NQAC internationally accredited) and we work with 2 third-party external laboratories.

**WE ARE ALSO TESTING THE RAW MATERIALS**

such as the wheat we make the noodles with and the spices we use to flavour the noodles.

In recent days we have tested samples from batches representing more than

**125 MILLION**  
**PACKETS OF**  
**MAGGI NOODLES**

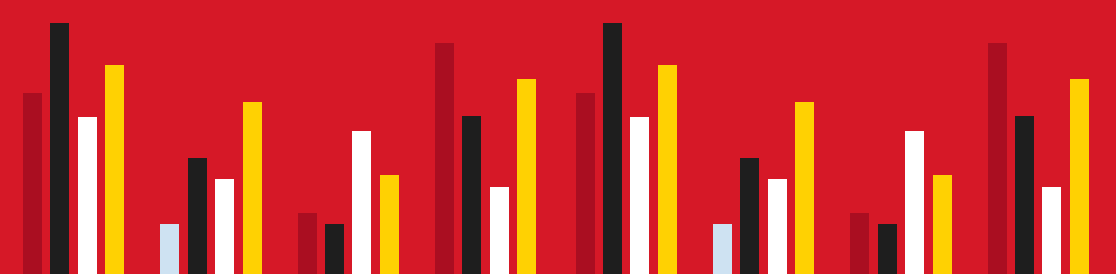

We have sent samples from an additional

**600 BATCHES**  
**TO AN EXTERNAL**  
**LABORATORY**

We have tested samples from

**1,000 BATCHES**  
**AT OUR OWN ACCREDITED**  
**LABORATORIES**

**ALL THE RESULTS SHOW THAT LEAD IS BELOW THE LEVELS SPECIFIED BY THE REGULATORS.**

To find out the facts about Maggi noodles in India visit:
